

# End-of-Year Contact Lead Survey

July 15, 2022

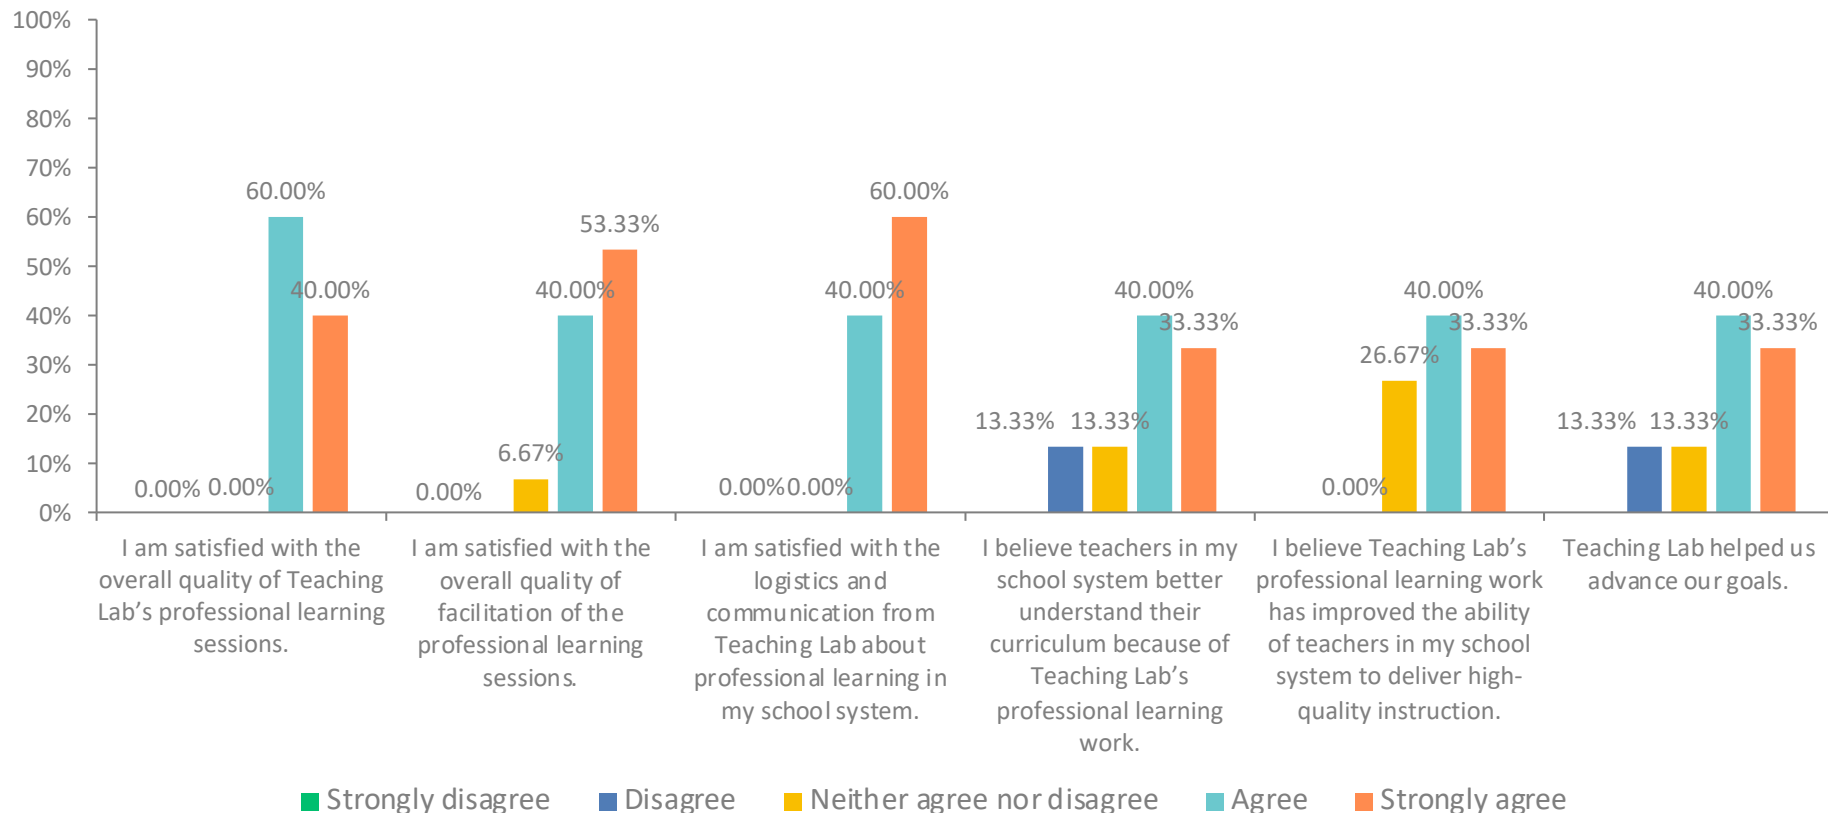

# Q1: What is the name of your district, network, or parish?

Answered: 15   Skipped: 0

### Q3: How much do you agree with the following statements about the professional learning provided by Teaching Lab this year?

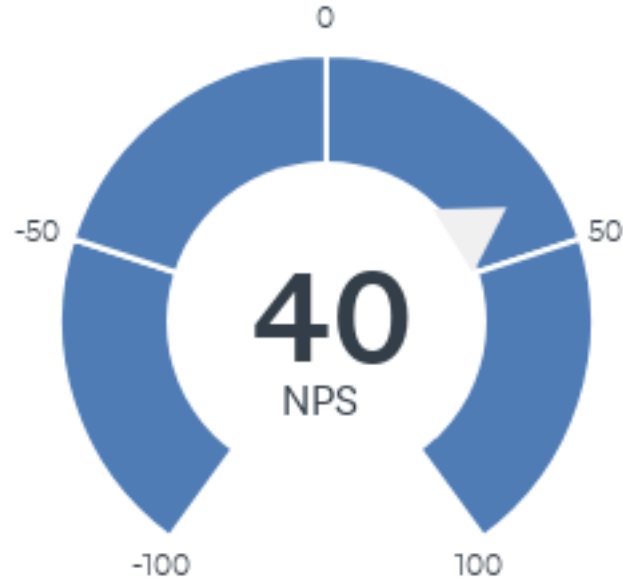

Answered: 15 Skipped: 0

- **100% agree/strongly agree: I am satisfied with the overall quality of Teaching Lab's professional learning sessions.**
- **100% agree/strongly agree: I am satisfied with the logistics and communication from Teaching Lab about professional learning in my school system.**
- 93% agree/strongly agree: I am satisfied with the overall quality of facilitation of the professional learning sessions.
- 73% agree/strongly agree: I believe teachers in my school system better understand their curriculum because of Teaching Lab's professional learning work.
- 73% agree/strongly agree: I believe Teaching Lab's professional learning work has improved the ability of teachers in my school system to deliver high-quality instruction.
- 73% agree/strongly agree: Teaching Lab helped us advance our goals.
- n=15

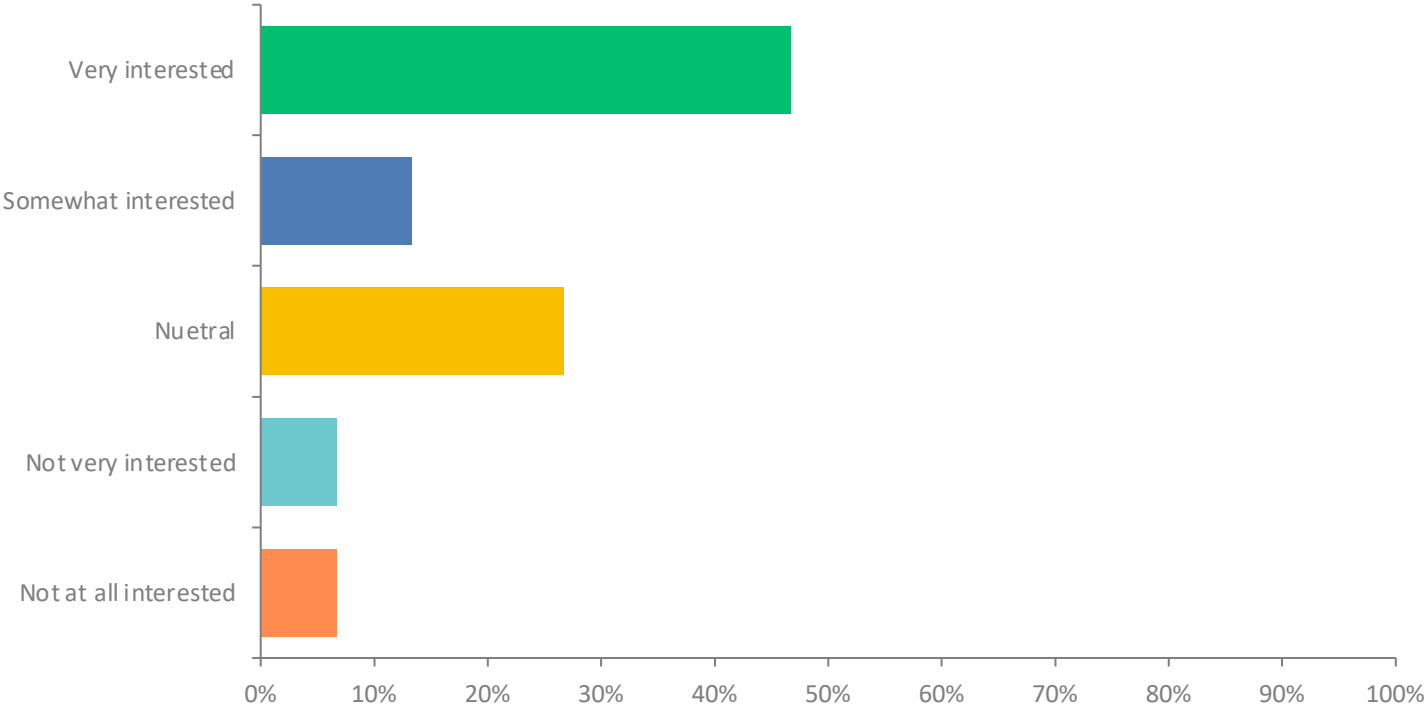

## Q4: How likely is it that you would recommend Teaching Lab professional learning to a friend or colleague?

Answered: 15 Skipped: 0

# Q5: How interested are you in continuing to receive professional learning from Teaching Lab next year?

Answered: 15 Skipped: 0

## Q6 What went well about your partnership with Teaching Lab this year?

Answered: 13 Skipped: 2

#	RESPONSES	DATE
1	Explicit resources were provided, effective communication between Teaching Lab facilitator and the admin team and Teaching lab facilitator and the teachers and the teachers thought the sessions were helpful.	6/28/2022 3:52 PM
2	Teaching lab was flexible and made changes to our professional learning plan when needed.	6/16/2022 2:57 PM
3	The set-up process was smooth and efficient. Teaching Lab staff worked with our organization to take on part-time tutors -- something they had never done before, which was incredibly helpful to us. They rearranged their training content and their approach to the work in order to meet our needs, and we could not be happier with the outcome. We look forward to future years of partnership.	6/15/2022 10:46 PM
4	Great communication, PL materials with course syllabus shared with district team prior to the launch of sessions, the number of cohorts launched this year reached many teachers across the district.	6/15/2022 10:48 AM
5	The organization and communication is always awesome. They are willing to customize content to our needs, as well.	6/7/2022 7:38 PM
6	The staff from teaching lab was very knowledgeable and I appreciated them trying to make it work for us. With Covid and zoom it was not a good fit to meet the needs of our teachers this year.	6/7/2022 6:22 PM
7	Great relationships with Mandi, Diana, and Monica. They listen to our unique needs.	6/6/2022 8:21 PM
8	The project management and collaboration with TeachingLab.	6/6/2022 3:29 PM
9	The facilitators were very accommodating to our district needs and the teacher needs.	6/6/2022 2:48 PM
10	Staff have content area expertise!	6/6/2022 2:36 PM
11	TL responsiveness to our evolving covid situation in NYC this year. Namely, the staffing shortages due to the vaccine mandate made professional learning virtually impossible Oct-Feb, but they were innovative in their approach and we appreciated that.	6/6/2022 12:47 PM
12	Communication between Hanady	6/6/2022 9:38 AM
13	Hanady was so responsive to our needs. We had several barriers to overcome and she was quick to respond to us and had tremendous follow through. She worked with us to navigate logistical challenges but also to modify the PD sessions to meet the needs of our staff.	6/3/2022 2:05 PM

## Q7 What could have been improved about your partnership with Teaching Lab this year?

Answered: 12 Skipped: 3

#	RESPONSES	DATE
1	Starting the planning sessions with teachers earlier in the year and in - person	6/28/2022 3:52 PM
2	Due to reasons beyond anyone's control, we started our partnership late in the year. Moving forward, I feel the timing and layout of the training sequence will go more smoothly because we will be starting in the fall.	6/15/2022 10:46 PM
3	More opportunities to collaborate and customize content, more on the ground shoulder to shoulder work in schools, pre-planning conversation with principal around the school's needs & goals, conduct mini audit/inventory before beginning the work in the school and having conversation with the principal.	6/15/2022 10:48 AM
4	Nothing. We had a great year.	6/7/2022 7:38 PM
5	I feel as though there was a curriculum development package and it was sort of a battle to get it to fit where teachers were in the moment, but also with zoom and covid it was a difficult situation.	6/7/2022 6:22 PM
6	Getting to meet Mandi in person.	6/6/2022 8:21 PM
7	Nothing.	6/6/2022 3:29 PM
8	We should have had an earlier start! That was our fault for waiting late in the school year to get started.	6/6/2022 2:48 PM
9	Educators are looking for more flexibility.	6/6/2022 2:36 PM
10	The teachers really want PD on the curriculum - to get to the content of the curriculum faster in the learning series because we saw participation decrease throughout series due to teachers not leaving the initial sessions with tangible next steps to implement the curriculum in their classroom	6/6/2022 12:47 PM
11	Unfortunately, doing the training DURING the school year was a bad idea. Because of scheduling conflicts on our side, we could not train teachers before the school year.	6/6/2022 9:38 AM
12	We ran 4 different groups and some facilitators did a better job reviewing the notes from Hanady than others. For example, we use Eureka but supplement with Zearn and some facilitators still asked participants what they use which made them feel like they were not aware of what our district teaches.	6/3/2022 2:05 PM

## Q8 Do you have any additional feedback about Teaching Lab's professional learning this year?

Answered: 9   Skipped: 6

#	RESPONSES	DATE
1	No	6/28/2022 3:52 PM
2	N/A	6/15/2022 10:46 PM
3	Get deep into the content by the end of the first session so that teachers feel connected to the scope of learning by end of day 1.	6/15/2022 10:48 AM
4	I appreciate the organization's shift to supporting culturally responsive math instruction and the work with Dr. Julia Aguirre will ensure services are research- and evidenced-based.	6/6/2022 3:29 PM
5	Great to work with and very professional.	6/6/2022 2:48 PM
6	Exciting to see your increasing focus on culturally responsive strategies + HQIMs	6/6/2022 2:36 PM
7	Thank you!	6/6/2022 12:47 PM
8	Push districts to do this training before the school year begins. So much of the content is around mindsets, and those mindsets are difficult to shift once 95% of teachers brains are focused on the logistics of facilitating day to day classroom instruction. Should it be at the heart and center? Of course, and for those that are further along in that mindset of equitable instruction, it doesn't need much shifting, but for those that are just beginning, or maybe even against it, I think you increase the likelihood of making shifts if you do this learning prior to the beginning of the school year.	6/6/2022 9:38 AM
9	It would be great to partner with other district in MA that also use Eureka and offer some future sessions. Unfortunately, we're rolling out new literacy curriculum so time and funding for PD is limited.	6/3/2022 2:05 PM
